Sermon – Israel at War

Scripture – Ezekiel 38&39

Main Message – God does not want us to be ignorant, but to be informed.

I am certain you are all aware that Israel is battling Hamas. Of course that is what it looks like on the surface, but several Arab nations are always striving to overcome Israel and it's VALID claim on the region in which they reside. Hamas is a tool of evil of other evil regimes. Watch to see if this escalates.

Watching the news and the demonstrations, I wonder where people come up with the garbage they so confidently believe. People think Israel invaded Palestine and have no claim to the territory. This is not true. God himself directed them to that region and Jacob himself returned home and purchased what is Jerusalem. No one has claim except the Jewish people today.

Yom Kippur war, was the last war and miraculously won. The gentile nations that put their faith in God are only grafted in to the true vine which is the nation of Israel, though many of the tribes have been dispersed, the Jews are certainly still quite visible. God will punish the sins of a nation, but make no mistake, God will bring about great destruction on those who attack his people. We need to support them in prayer and with our countries resources, especially after the atrocities that have been committed.

Our Guide today is an expository reading of Ezekiel 38 and 39. God wants those who believe to be informed. Sadly, people who have no understanding are ignorant of the facts and thus evilly deceived by the lates indoctrination camp of US colleges and Universities.
